TWIN EAGLES COLLECTION

OUTDOOR COOKING AT HOME

 **DOMETIC** HOME

ENJOY YOUR TIME TOGETHER

Welcome to Dometic Twin Eagles

Time spent with friends and family is precious – so make it count. Dive into our line of outdoor cooking equipment. Benefiting from decades of gas engineering excellence, the Twin Eagles Collection offers both casual grillers and serious professionals perfect results every time.

ENGINEERED PERFORMANCE

5-PART GRILLING SYSTEM

Our proprietary 5-Part Grilling System utilizes advanced technology and components designed and engineered exclusively by Twin Eagles. This unique synergistic grilling system integrates direct and radiant heat to ensure your grill:

- Preheats faster
- Reaches higher temperatures
- Distributes heat more evenly
- Offers complete control in each grilling zone
- Uses less gas

1. DRAFTING

When you ignite the burners, heat rises and creates a draft which draws clean cool air through vents located at the bottom of the firebox.

- Keeps the heat above the burners, accelerating its movement to the cooking surface
- Air/gas mixture remains constant for a more efficient flame
- Eliminates stress to the burners from heat, the number one cause of burner fatigue

2. DIRECT HEAT

Other grill systems operate solely off the principle that heat rises, which can create hot and/or cold spots. Heat will also follow the path of least resistance. Our exclusive system uses briquette trays with channels that direct heat systematically.

As the heat is pushed upward, it passes through ports located between the ceramic briquettes.

- Supplies the intense heat preferred for searing and grilling
- Preheats your grill faster
- Minimizes gas use

3. RADIANT HEAT

High-grade ceramic briquettes distribute radiant heat evenly to the cooking surface, essential for consistent grilling. Part of the preheating process involves bringing the ceramic briquettes to temperature. Absorbing heat into the bottom of the briquettes and transferring it out the top takes time and uses gas. Instead of relying solely on absorbing heat into the bottom of the briquettes, the Twin Eagles system also absorbs heat into the sides and tops of the briquettes from channels located between the rows of briquettes.

- Briquettes reach temperature in a fraction of the time using less gas
- Even distribution of heat

4. ZONE GRILLING

The Twin Eagles grill allows you to cook multiple food items at different temperatures. A divider between each burner breaks the grilling surface into zones. You can operate all zones at the same temperature level or control each zone temperature independently.

Zone grilling also permits you to grill one or two items efficiently with only one burner operating. Since drafting pushes the heat upward, it's concentrated in one zone and will not spread throughout the firebox.

- Lets you effectively operate one zone only for small volume grilling
- Allows you to operate all zones at one temperature level or control the temperature of each zone independently to grill a variety of foods at once

5. HEXAGONAL GRATES

Grates on most grills serve one purpose: to hold your food. Twin Eagles grates actually aid in the grilling process by absorbing, retaining and conducting heat into your food. The thicker or heavier the grate, the more heat it will absorb and retain.

We use 3/8 inch hexagonal stainless steel rods in our grates. They offer over 20% more mass than most grates and 10% more mass than 3/8 inch round rods. The increased mass retains more heat.

The flat surface of the hexagon rods creates more food-to-surface contact versus round grates, allowing more heat to be conducted into your food.

- Food cooks more evenly
- Creates deeper and thicker restaurant-style sear marks

Premium Grills and Accessories

C SERIES GAS GRILLS

PERFECT RESULTS

Here's where it all comes together in our sleek, gorgeous grilling machines. Choose one of our four built-in gas grills, depending on your preferred size and whether you want to include our finely-tuned,

concealed rotisserie system or a sear zone. Each grill features our innovatively engineered Five-Part Grilling System, designed for the ultimate grilling synergy. The result is a perfect meal for your guests.

Dometic Twin Eagles
C Series 42

Also available in 30, 36, or 54 inch models. Suitable for built-in or free-standing application (base sold separately)

Premium Grills and Accessories

EAGLE ONE GAS GRILL

Twin Eagles
Eagle One 54

Also available in 42
inch model. Suitable for
built-in or free-standing
application (base sold
separately)

UNCOMPROMISING DESIGN AND PERFORMANCE

The Eagle One offers a striking design profile made for the most discerning enthusiasts. Grill with confidence thanks to the ambient and exact control illumination, which provides a clear indication of temperature at the burner surface. Utilize the TempTrack LEDs on the face of the grill for quick monitoring of overall grill temperature. Achieve beautiful sear marks with the oversized 1/2 inch hexagonal grates and take advantage of the glass enclosed Infrared Rotisserie feature to expand your cooking capabilities.

Premium Grills and Accessories

WOOD FIRED PELLET GRILL

PERFORMANCE MEETS CONVENIENCE

Getting started on your grill is easier than ever. Simply use the weatherproof touchscreen to set the temperature between 140°F to 725°F, or choose from one of several preprogrammed settings. Get real-time updates from onboard temperature probes using the

touchscreen control or convenient downloadable app, which allows control of the grill via WiFi. The included vaporizer plate, briquette tray, and charcoal tray allow for incredible versatility to suit your preferred cooking method. Available with or without rotisserie.

COOKING ACCESSORIES

Expand your outdoor cooking capabilities with one of our specialty cooking accessories such as the Power Burner, Teppanyaki, or a side burner combination of your choice.

BAR ACCESSORIES

Convenient and elegant beverage solutions that complement the style and accents of your grill.

**Dometic Twin Eagles
Teppanyaki**

30 inch flat top griddle

**Dometic Twin Eagles
