# ABOUT

Luxury Fire Canada is committed to bringing our clients and vendors the best in fire feature sales and service across Canada. At Luxury Fire Canada, we are constantly looking for unique brands to bring to the Canadian marketplace. We are your preferred distribution partner for all things fire!

Luxury Fire Canada is a Sales Maverick Inc. brand. We created Luxury Fire Canada because of the large offering of fire features we represent in Canada. As a distributor, we are committed to putting your needs first and consistently exceeding your expectations. We are constantly educating ourselves on the brands we represent to give you and your team the equipment and service level required for a successful business.

# LUXURY FIRE TABLES

LUXURY FIRE TABLES LUXURY FIRE CANADA

## QUALITY & CRAFTSMANSHIP

The Outdoor Plus is a Fire & Water Product Manufacturer with over 25 years of experience. Their goal is to provide all clients with the highest quality of craftsmanship. We take pride in stocking The Outdoor Plus products because of the quality of the product. Each fire table we stock, features a stainless steel Bullet Burner. This patented design creates a higher, fuller flame using less gas than a traditional burner.

If you want quality, look no further than The Outdoor Plus. Their products are made in the USA using the highest quality materials. The Outdoor Plus has the widest selection of water and fire features for both commercial and residential use.

### WHAT IS THE BULLET BURNER DIFFERENCE?

- Hexagonal Uniform Hub evenly distributes the gas through all ports of the burner.
- Curved burner design distributes the gas evenly to burner ports.
- Precisely placed bullet orifice gives you the most efficient and effective flame.
- Creates a 50% higher, fuller flame while consuming 30% less gas.

## UPGRADED MEDIA IN YOUR FIRE BOWL

Instead of lava chunks, we've upgraded the stone to Polished Lava Rock for a sleeker, richer look.

In addition to their wide selection of fire and water tables, they offer a wide selection of accessories to customize each table. We are able to order any product listed in their catalogue to meet your needs.

# LUXURY TABLE TOP FIRE BOWLS

RELAX, CONNECT, SHARE

Everyone's favorite place is gathered around the flickering flames of a fire. It was with that in mind TerraFlame™ was established in 2015.

This inspired collection of fire features designed for your home and outdoor space make every space more inviting. Whether you want to create a warm ambience to gather with friends and family or forcherished alone time. TerraFlame™ offers something for you.

TerraFlame products are fired by Gel Fuel by SunJel. No chimney, plumbing, gas lines, or fluting is needed for these easy install, gel fuel fired, fire accessories.

## BENEFITS OF SUNJEL GEL FUEL:

- No smoke
- No clean-up
- 7inch flickering flames
- Can be enjoyed indoors or outdoors

## TERRAFLAME'S GROWING COLLECTION OF PRODUCTS INCLUDES:

- Fire Bowls for soft patio lighting, fire circle gatherings, and S'mores!
- The Lloyd Fireplace is a mid-century modern inspired design, which is free standing and ventless
- TerraFlame's Log Fireplace Inserts are self-contained concrete logs that bring your unused fireplace back to life
- The Nero collection completes your patio set up.
- Torches create an outdoor ambiance that can be used on the patio or in the ground.

# LIVE FIRE GRILLS

# URBAN ASADO

EXPERIENCE GRILLING®

**AUTHENTIC, HANDCRAFTED QUALITY**

## THE MOST AUTHENTIC SANTA MARIA / GAUCHO / ARGENTINE / ASADO GRILL ON THE MARKET TODAY!

Each Urban Asado grill is completely handcrafted in St. Augustine, FL, using high quality, American 304 stainless steel. These high performance, live fire grills have been exclusively designed for the Canadian market with features that make them stand apart.

### OUR EXCLUSIVE DESIGN INCLUDES:

- A much larger brasero along the back of the grill to maximize grilling space
- A welded 304 stainless wind guard along the back to increase heat retention and allow for authentic rotisserie cooking
- 304 stainless steel brasero fire basket
- Cast stainless hand wheel & 304 stainless insulated fire brick frame
- IPE wood decking & stainless steel castor wheels
- 304 stainless steel angled v-grate grill with drip tray

### ANGLED V-GRATE GRILL WITH DRIP TRAY:

Make building sauces in the drip pan easy and is the perfect way to introduce more flavors & style to any meal!

- Helps reduce flare-ups
- Channels and collects juices in the drip pan. Plus, add your favorite spices & cooking oils in drip pan to blend with the meat juices to create a delicious baste

## CAST STAINLESS HANDWHEEL & 304 STAINLESS INSULATED FIRE BRICK FRAME:

The ENTIRE frame is made of 304 stainless and FULLY WELDED for multiple generations of enjoyment!

- Raise and lower the cooking surface as needed to reach the desired temperature
- Provides complete access to the coal bed below which is a great place to roast vegetables
- Access to multiple heat zones
- Cast 304 Stainless hand wheel for a luxury look and experience
- Aircraft rated cables rated at 100lbs of load each used to raise and lower the grill grate
- Cooking area is lined by fire brick which prevents loss of heat – this sets Urban Asado grills apart from competitors
- A 304 stainless rod is reinforced and can be used to hang food for the ultimate grilling experience

## BRASERO FIRE BASKET:

Our exclusively designed stainless steel brasero fire basket is much larger to help maximize grilling space!

- Provides a continuous source of glowing hot embers for grilling
- Prevents the burn-off period from fresh wood or charcoal from affecting the flavor of your food
- Includes a wind guard along the back to increase heat retention and allow for authentic rotisserie cooking

## IPE WOOD DECKING & STAINLESS STEEL CASTOR WHEELS:

Store your wood and charcoal with confidence & 4 stainless steel castor wheels for a lifetime of easy mobility!

- The most prestigious choice for decking
- Resistant to scratches, decay, insects, and mold
- Same fire rating as concrete and steel
- 3 times stronger than cedar – 'Iron Wood'
- Stainless steel wheels mean a lifetime of mobility

LIVE FIRE GRILLS LUXURY FIRE CANADA

**AUTHENTIC, HANDCRAFTED QUALITY**

The Hooray Grill Company manufactures their Santa Maria style grills in Wichita, Kansas, USA. Their goal is to enhance your backyard grilling experience with the world's best Santa Maria style grills!

The Hooray Grill Company has designed their grills with a number of features that make their product stand out from the competition.

### **ROTISSERIE SYSTEM:**

The Hooray Grill rotisserie element can handle whatever you want to throw on it, from whole chickens to whole pigs! Their unique design means you can do this all while still having your main grilling surface available for other items you're cooking. The luxury rotisserie system is standard on all Hooray Grill models.

- 304 stainless steel forks
- 304 stainless steel spit rod which is easily removable and safe-to-use
- 304 stainless steel enclosed motor rated for 80lbs and removable for storage

## STAINLESS AND BRASS GEAR SYSTEM:

This system means that you only need one hand to raise and lower the grill with no clicking!

- Raise and lower the cooking surface as needed to reach the desired temperature
- Have complete access to the coal bed below which is a great place to roast vegetables
- Access to multiple heat zones
- Stainless and brass gear components – operation improves the more you use it
- Aircraft rated cables rated at 100lbs of load each, are used to raise and lower the grill grate

## REMOVEABLE GRILL GRATES AND FOLDABLE SIDE TABLES:

- Maximum versatility with the ability to remove sections of the grill for combination cooking – grill and rotisserie
- Solid 3/8 304 stainless steel grates on the Premier Models to last a lifetime
- Three-sided foldable tables to help keep everything you need close at hand

## REMOVEABLE COAL GRATE AND ASH SHOOT DOOR:

- Easy to clean after every use
- Ash shoot door can also be used to increase airflow to the coals to better manage heat
- Aircraft rated cables rated at 100lbs of load each, are used to raise and lower the grill grate
